

## ProAc RESPONSE TWO

### **An important statement in compact loudspeaker desk.**

ProAc are internationally renowned as manufacturers of high quality loud-speakers. Now we introduce a new generation of models - the RESPONSE range.

These loudspeakers will redefine the state-of-the-art in loudspeaker design. The culmination of almost twenty years design experience, they incorporate the very finest components and materials available. Exhaustively researched and tested using the latest technology, the RESPONSE range allows the full realisation of the potential of high quality ancillary equipment.

The RESPONSE TWO addresses the Compact area. The outstanding feature of this loudspeaker is the M.I.O.P. (mirror image offset placement) drive unit layout. Careful mathematical attention to tweeter positioning, midrange offset pole distance and optimum cabinet size has proved exceptionally successful in creating a wide, deep

 **ProAc**

soundstage together with phenomenal imagery. The resulting of M.I.O.P. is of the speakers almost disappearing from the scene. The impressively accurate technical measurements of this model translate into the most detailed and truthful portrayal of music achieved to date ft compact loudspeaker. The RESPONSE TWO combines less musicality with a revealing involving clarity.
